OBJECTIVE

Passionate Computer Science student with a strong interest in web development and front-end technologies. Developed multiple personal and academic web projects available on GitHub. Committed to continuous learning and eager to contribute to in a collaborative environment.

ACADEMIC QUALIFICATION

Bachelor of Engineering in Computer Science | 2023-2027 - Dr.N.G.P. Institute of Technology ,Coimbatore

- Computer Science student , in progress
- GPA: 8.2 (till 5th semester).

Higher Secondary Education - M.S Vidyalaya higher secondary school, Tiruppur

- 12th percentage - 87%
-

PROJECTS

Employee Payroll System | Java, OOP, JDBC, MySQL

- Developed a console-based payroll system using Java and OOP principles to manage employee data and automate salary calculations (HRA, DA, PF, tax, net salary).
- Integrated MySQL database using JDBC for storing employee and payroll records, implementing CRUD operations and improving data accuracy and processing efficiency.

Portfolio | React.js

- Developed a responsive personal portfolio website using React and CSS, showcasing projects, skills, and contact information with a clean UI design.
- Implemented interactive features like skill-based project highlighting and animated UI effects, improving user engagement and demonstrating frontend development skills.

Hand recognition cursor | OpenCV, MediaPipe, PyAutoGUI

- Developed a real-time hand gesture recognition system to control mouse cursor movements using computer vision techniques
 - Implemented gesture-based actions such as click, scroll, and drag using OpenCV, MediaPipe, and PyAutoGUI
-

INTERNSHIP

Generative AI - Gateway Software Solutions,Coimbatore on june 2025

- Worked on fine-tuning large language models (LLMs) for domain-specific tasks such as summarization, Q&A, or chatbot development.
- Built and deployed prototypes demonstrating real-world applications of generative AI, such as content creation, code generation, or image captioning.

Web development - Codsoft

- Developed multiple responsive web projects using HTML, CSS, JavaScript
 - Gained hands-on experience in deploying projects using platforms like GitHub Pages
-

TECHNICAL QUALIFICATIONS

- **Programming languages** - Java, HTML, CSS,
 - **Script languages** - Javascript,react.js
 - **Database** - SQL
-

AREA OF INTEREST

- Web development
 - UI/UX design
-

CERTIFICATIONS

- Gen AI,LLM and Prototyping , june 2025
 - Full stack development , november 2025
 - Nptel - Cloud computing , may 2025
 - Nptel - Introduction to internet of things , october 2025
-

LANGUAGES

- Communicative english
 - Tamil
 - Kannada (speak only)
-
